- > Moving to the new phase where API would be able to demonstrate unique advantages, such as prime location & high quality, after finishing the phase of supporting our tenants to continue their business operations
- > Occupancy rate is expected to improve after marking its lowest rate during the first half of 2021. Thereafter, as soon as possible, we aim to return to the normalized operation level for all the property types excluding hotels.

Response to COVID-19 and Growth Strategy ~ Path to Post COVID-19 ~

- ➤ Maintaining occupancy rate was prioritized in FP18 ended Nov. 2020 and secured capacity to perform leasing strategy in FP19 ending May 2021 and beyond
- ➤ Focus on leasing of offices in FP19 ending May 2021 and beyond, aiming particularly for rent increase leveraging rent gap upon tenant replacement
- > Support DPU for FP19 & FP20 by continuing asset replacement and cost reduction at upcoming refinancing

Period ended Nov. 2020 (FP18) Period ending May 2021 (FP19) Period ending Nov. 2021 (FP20)

Maintain occupancy with fulfilling social responsibility

- ✓ Maintained occupancy rate of approx. 99% at end of FP18 ended Nov. 2020
- ✓ Actual DPU were ¥400 higher than the initial forecast even after temporary rent reductions were granted to 79 retail tenants
- ✓ DPU bottomed **up** by **¥18** owing to sales-linked rent structure newly introduced to tenants that enjoyed temporary rent reduction

Prioritize to maintain & raise rent level in office leasing

DPU improvement by external growth and financial strategy

- ✓ DPU for FP19 and FP20 are forecasted to decline as we will lose some revenue due to downtime. However, **stabilized DPU** will be **improved** after closely examining the rent gap for each tenant
- ✓ Aim to invite attractive retailers at tenant replacement in street side store of EDGE Shinsaibashi and other opportunities taking portfolio's locational advantage

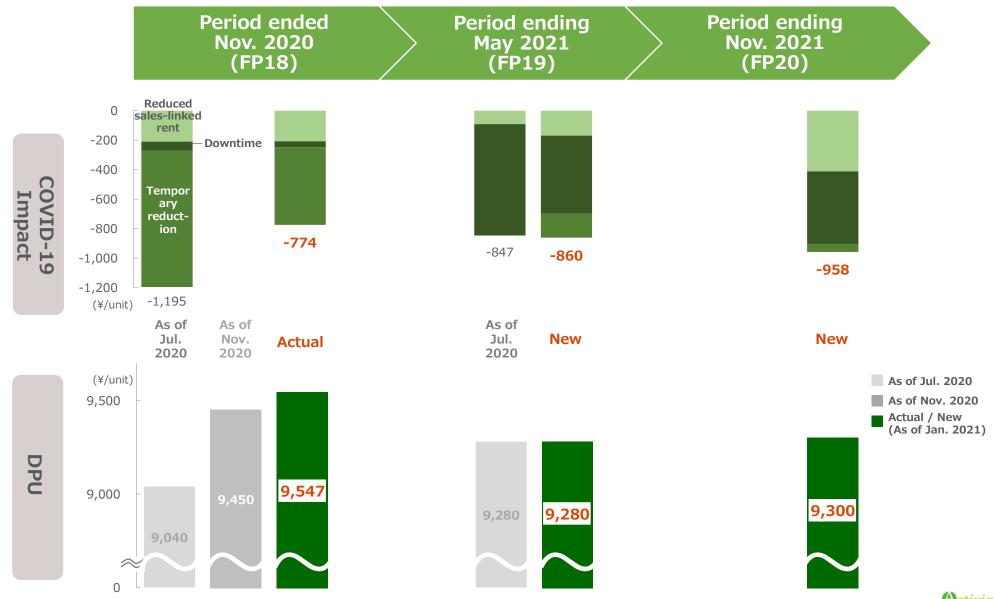

- ✓ Aim to improve DPU and portfolio quality with continued strategy of asset replacement
- ✓ Consider DPU management such as to stagger the timings of acquisition and disposal of assets to mitigate COVID-19 impact
- ✓ Refinance scheduled in FP20 ending May 2021 is an opportunity to extend the duration and reduce cost

COVID-19 Impact on DPU ~ Breakdown of Factors in Actual and Forecast DPU ~

Number of relief requests

✓ Incoming relief requests are settling down as tenant sales showing signs of recovery and thanks to governmental supports

Breakdown of requests and negotiation status

- ✓ Having agreed temporary rent reduction to 79 tenants, impact on DPU was smaller than the initial forecast by ¥400
- ✓ Possible impact of cases under negotiation will be relatively immaterial and we will work to reach to agreement during FP19 ending May 2021

Alternative lease conditions

✓ As a result of the temporary rent relief negotiations, 40% of the negotiated tenants agreed to the following alternative lease conditions

Opportunity for internal growth

- Rent increase after reduced rent payment 4 tenants
 - Lost revenue due to reduced rent will be retrieved in some cases
- Sales-linked rent newly applied /breakpoint change 8 tenants

 Sales link rent structure introduction enables us to grasp true sales conditions of tenants, which will give a great advantage in future rent negotiations

Reduce underlying risk

- Extension of non-cancellable period 9 tenants
- Extended also notice period to secure longer period for leasing activities
- 4 Lease renewal 12 tenants
 - Some agreements switched to fixed-term lease

(Assumption) (Assumption)

New Contracts Are Steadily Progressing. We Still Hold Bargaining Office Leasing Status

Power Which Allows Us to Ask for Higher Rent from Existing Tenants

1. Trend in new lease contract & cancellation

- ✓ **Lease cancellations outnumbered** new contract at the time of COVID-19 expansion phase, as many tenants wanted to reduce cost
- ✓ Newly contracted area is exceeding cancelled area since October with gradually accumulated contract conclusions

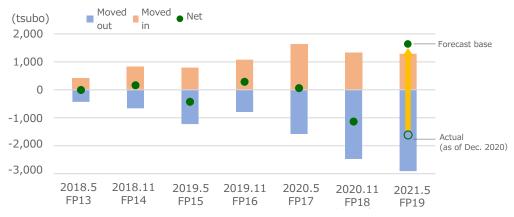

Rent gap (Tokyo Office)

✓ Although rent gap was closer from FP17 due to our achievement in rent growth and adjusted market rent, we still hold bargaining power with tenants for higher rent

2. Trend in areas moved-in & moved-out

- ✓ Moved-out area expanded for FP18 ended Nov.2020 and FP19 ending May 2020 due to increased number of tenant departures
- ✓ Aim to improve situation in FP19 through continued leasing activities recently well performed

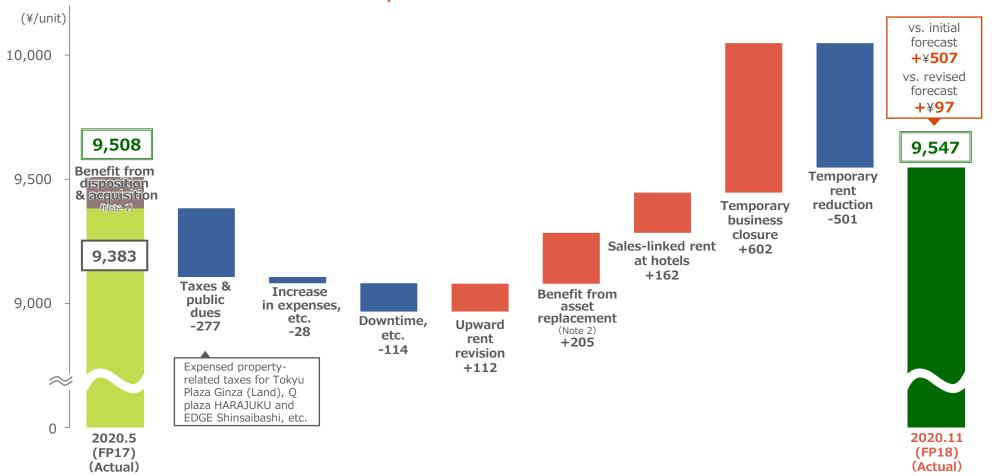

3. Office occupancy at end of period

✓ Occupancy on rent generating basis is expected to bottom at end of FP19 ending May 2021 and rebound for end of FP20 ending Nov.2021

DPU Summary for FP18 Ended Nov. 2020 ~ Results Exceeded Initial Forecast and Revised Forecast as Well as Previous Period Results

- ➤ With **revenue increase** in sales-linked rent at hotels, rent growth at lease renewal and benefit from asset replacement absorbing increase in expenses due to property-related taxes for three properties acquired in 2019, DPU for FP18 ended Nov. 2020 resulted to be ¥9,547 (+¥39 vs. previous period)
- ➤ Up ¥507 or 5.6% from initial forecast and up ¥97 or 1.0% from revised forecast as a result of measures taken to minimize the COVID-19 impact

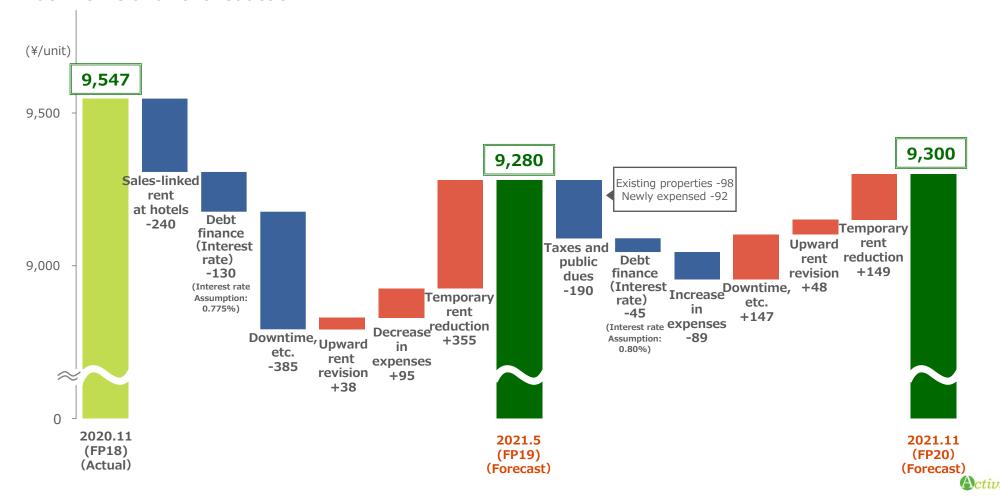

(Note 1) Benefit from disposition & acquisition refers to the amount equivalent to ¥125 per unit, calculated by deducting gain on sale and lost profit, etc. of A-PLACE Shinbashi Ekimae disposed of on March 19, 2020 from the operating profit of Ebisu Prime Square acquired on January 10. 2020.

DPU Summary for FP19 Ending May 2021 (Forecast) ~

- ▶ DPU for FP19 ending May 2021 is expected to be ¥9,280, down ¥267 from FP18, as we incorporate some negative impacts such as drop in revenue from sales-liked rent at hotels. Also, we decided to factor in some buffer in our borrowing cost assumptions
- ➤ DPU for FP20 ending Nov. 2021 is expected to be ¥9,300, up ¥20 from FP19 due to increase in expenses incl. property-related taxes and interest rate despite COVID-19 impact mitigation such in downtime and rent reduction

Sales-linked rent

✓ Due to the staggered timing to recognize sales-linked rent as revenue, COVID-19 impact will be significant in performance of FP19 ending May 2021 and beyond

Asset Replacement Strategy ~ No Change in Principal Philosophy ~

- ➤ **Asset replacement** is continuously positioned as our principal policy for external growth. Asset to be disposed will be selected by the following criteria; **①Profitability ②Building age ③Competitiveness**
- > Assets to be acquired will be carefully selected in terms of growth potential. We are targeting to acquire **offices in the south of JR**Yamanote Line. In particular, those in the greater Shibuya area and Shinagawa·Gotanda area are the principal candidates

Disposition policy

1Profitability

Properties with relatively low yield and limited upside potential

- ✓ Contribution to DPU thanks to asset replacement (NOI yield after depreciation: 3.1%⇔2.5%)
- ✓ Upside potential when rent gap closes
- ✓ Increase in unrealized gain

2 Building age

Properties requiring a **large amount of cash** in future for maintenance expenses and capital expenditure, etc.

Disposed During FP Ended May 2014

- ✓ Tokyo Kikai Honsha Building which had been suffering lowered competitiveness due to age deterioration was disposed. We now own the land interest only
- May 2014 ✓ Not just avoiding the risk, we obtained the priority negotiation right once this building gets redeveloped

3Competitiveness

Properties with a **risk** of significant rent decrease, long-term vacancy, etc.

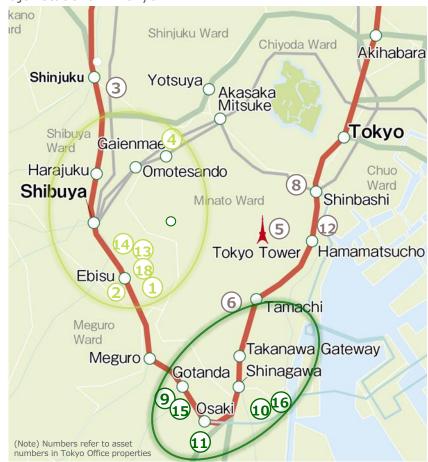

- Acquired a recently-build property in the greater Shibuya area developed by Sponsor
- ✓ Gain on sale of property was split over two periods

Acquisition policy

✓ Southern area of JR Yamanote Line is known to be close proximity to the residential districts. Yamanote Line is known to be linking major stations in Tokyo

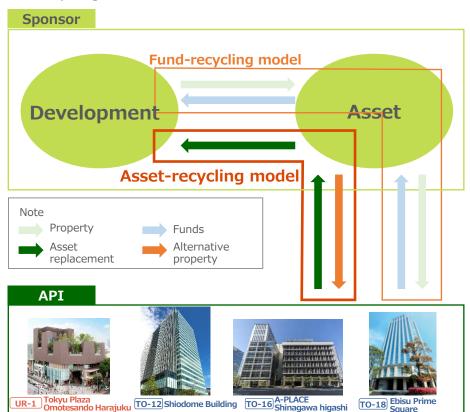

Sponsor Support ~ Aiming for External Growth through a More Developed Approach ~
